

Bilz-Products in application

G+K Machine Press, static weight: 20 tons

Manufacture of connecting elements for the automotive industry; material fed via a steel roller conveyor.

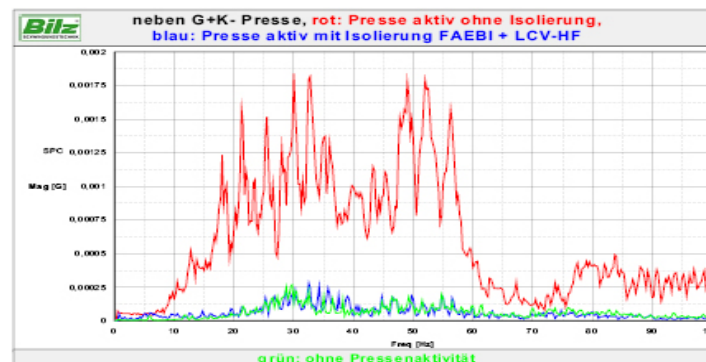

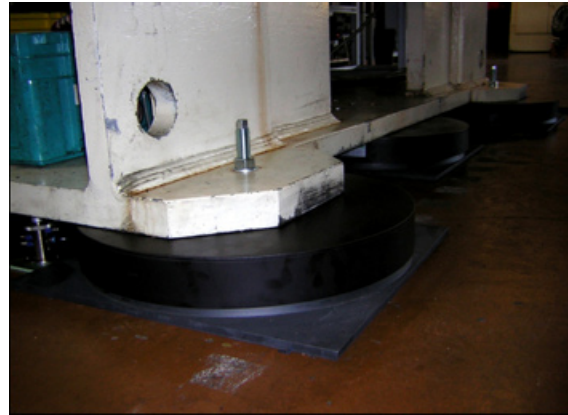

Equipment: BILZ® Rubber Air Springs
FAEBI® 430, 6 Elements (fe ~ 5.8 Hz) with

protective hoods and 3 level control valves
LCV High Flow

Special Requirement: Machine vibrations had been transmitted into a neighbouring residential property. Our instructions were to achieve the highest possible insulation with

a minimum of machine movement.

Achieved machine amplitude with insulation and level control of only approx. +/- 2mm !
